Spring 2015 HOD discussion

* We have seven chapters with fewer than 12 members. BHS has the criterion that no chapter should persist below 8 members for any length of time. If it did go below 8 there would be an automatic revocation of its chapter charter. We have three such chapters presently and those all have persistently had fewer than eight. My recommendation is that the HOD should be resolved to revoke chapter charters at the fall HOD for any chapter that does not have at least 8 members, not counting those whose dues might be overdue. In subsequent years, membership assessment for potential fall revocation will be made and warnings given at the spring HOD. If membership below eight persists, that action will again be taken at the fall HOD.

Sing-cerely, Hugo Feugen
