

## **PROPOSAL**

**That the Illinois District provide for hard copies of historical information no longer available through normal avenues of communication, ie: a district directory.**

**Background:** In 2002 the last Illinois District directory was produced in a hard copy format. During the past ten years, critical information such as members of the district board, changes in district board structure, a calendar of district events, district committee chairmen, chapters, chapter officers and information of historical value have been lost due to the annual updating of the district web page information.

**Status** With the understanding that, if the current method of operation continues, the district will continue to lose valuable historical information with each yearly update of this important information. I would like to make the following proposal:

**Proposal** That the Illinois District provide an individual or individuals responsible for handling a procedure that will annually provide a hard copy of the following materials which can be kept and saved in the district historical archives and on the district web page. The information would include, but be not restricted to the following items:

District board members and their offices (both governance and operations), district chairmen and their areas of responsibilities, district quartets and personnel, IDEA information, past presidents, district award winners, upcoming district and chapter events, YIH, QCA, photos, chapters, chapter officers, chapter chorus directors, chapter meeting location and contest results.

**Respectfully submitted,**

**Bob Squires
